Welcome

As Chairperson of the ARIS User Group, I am pleased to welcome you to the ARIS User Group (AUG).

Established in July 2004, the AUG has been active ever since in sharing ideas, promoting collaboration and exchanging knowledge in Business Process Management (BPM) concepts expressed in ARIS products, as well as disseminating guidelines and best practices to Group members.

Our latest accomplishment took place in early 2008 when our AUG Portal was launched by IDS Scheer. This new site now gives us the opportunity to have ongoing exchanges, submit comments and ask questions at anytime while not feeling as though something was lost by missing a meeting.

Indeed, up to now, monthly WebEx meetings have been the preferred method to provide these services to our members and, although the Portal is available, the meetings will continue to occur. These meetings are a unique opportunity to attend live presentations covering a wide range of subjects from Web Publisher, to SOA, to Best Practices. So please take note in your agenda: AUG, third Thursday of every month at 3:00pm (ET).

With time, I am sure you will find multiple benefits in having enrolled in our ARIS User Group. Please feel free to submit your comments / questions and do not hesitate to spread the word to other ARIS Users. Welcome to the ARIS user Group.

Regards
Deb Boykin
